

ARAZ SHAMSADDINLOUY

Senior Frontend Developer

Antalya, Turkey | +90-552-109-5309 | araz.shamsaddin@gmail.com | linkedin.com/in/araz-shams

SUMMARY

Frontend Developer with 11+ years of professional experience building modern, scalable, and high-performance web applications. My expertise includes Angular, React, Next.js, TypeScript, JavaScript, HTML, and CSS, with hands-on experience in Node.js and Express for backend development.

I specialize in transforming UI/UX designs into pixel-perfect, responsive, and accessible user interfaces with a strong focus on clean code, performance, and maintainability. I have extensive experience developing enterprise applications, reusable component libraries, and responsive web solutions that deliver excellent user experiences across devices.

I enjoy solving complex technical challenges, learning new technologies, and collaborating with cross-functional teams to build reliable, high-quality products. I'm passionate about writing maintainable code, optimizing application performance, and delivering solutions that create real business value.

EXPERIENCE

Informatic Services Corporation – Senior Software Developer (React/Angular/Express) – Tehran, Iran

Dec 2020 – Jul 2026

- Built and maintained a large-scale Recruitment Platform handling 4,000+ resumes with optimized workflows using React, Node.js, and Express.js —ensuring 99% uptime.
 - Led frontend (React/Angular) and backend (Express.js) enhancements for ISC's corporate website, reducing page load time by 70% and improving maintainability through modular component architecture.
 - Built and optimized the international web presence for the Asian Clearing Union (ACU), ensuring multilingual support, security, and global accessibility.
 - Designed and implemented multiple internal back-office applications, streamlining operational processes and supporting mission-critical activities across the organization.
- I also used **AI** for folder structure of my project and what is the best ORM to use.

Sheypoor – Software Frontend Developer – Tehran, Iran

Nov 2019 – Nov 2020

- Engineered core features of the company's main website using Knockout.js, jQuery, and vanilla JavaScript, ensuring high performance, modular architecture, and long-term maintainability.
- Configured and optimized Git pre-commit hooks to enforce ESLint compliance, improving code quality, consistency, and team-wide development standards.

Pooya Co – Senior Frontend Developer (Angular/React) – Tehran, Iran

Sep 2018 – Sep 2019

- Built a fully localized social media platform using Angular, implementing scalable architecture, optimized data flows, and a seamless multilingual user experience.
- Developed tools, real-time data handling, and a highly efficient, robust administration panel for the social media platform, with a modular UI.

Digikala – Senior Frontend Developer (React/Laravel) – Tehran, Iran

Apr 2018 – Sep 2018

- Developed a comprehensive financial administration panel for internal enterprise use, leveraging React for a high-performance, component-driven frontend and Laravel for secure, scalable backend services and data management.

Telewebion – Mid Frontend Developer (Angular) – Tehran, Iran

Jan 2016 – Jul 2018

- Delivered improved SEO, faster initial load times, and a seamless viewing experience across devices. a high-performance video streaming platform using Angular with Server-Side Rendering (SSR).

GSM – Junior Frontend Developer – Tehran, Iran

Jan 2015 – Jan 2016

- Developed the [GSM.ir](https://gsm.ir) website using vanilla JavaScript and jQuery, implementing optimized interactive features, improving site responsiveness, and ensuring efficient performance across all major browsers.

ProptIQ – Freelance Programmer – Sydney, Australia

Sep 2025 – Present

TalaeShow – Freelance Programmer – Tehran, Iran

Jan 2023 – Present

ODCC Oil Company – Freelance Programmer – Tehran, Iran

Jan 2024 – Present
